OUR SCHOOL

THE OSCEOLA MILLS HIGH SCHOOL SONG

(Tune Boola Song)

Amid the vales of Moshannon's stream
Lies a town of exceeding ancient fame,
Where the hills of Penn still silent dream
And which Chief Osceola gave his name
Where sped the redman's birch canoe
But lonely waters flow—
And silent is the warrior's song:
Osce-o-Osceola-ola-o-

Chorus

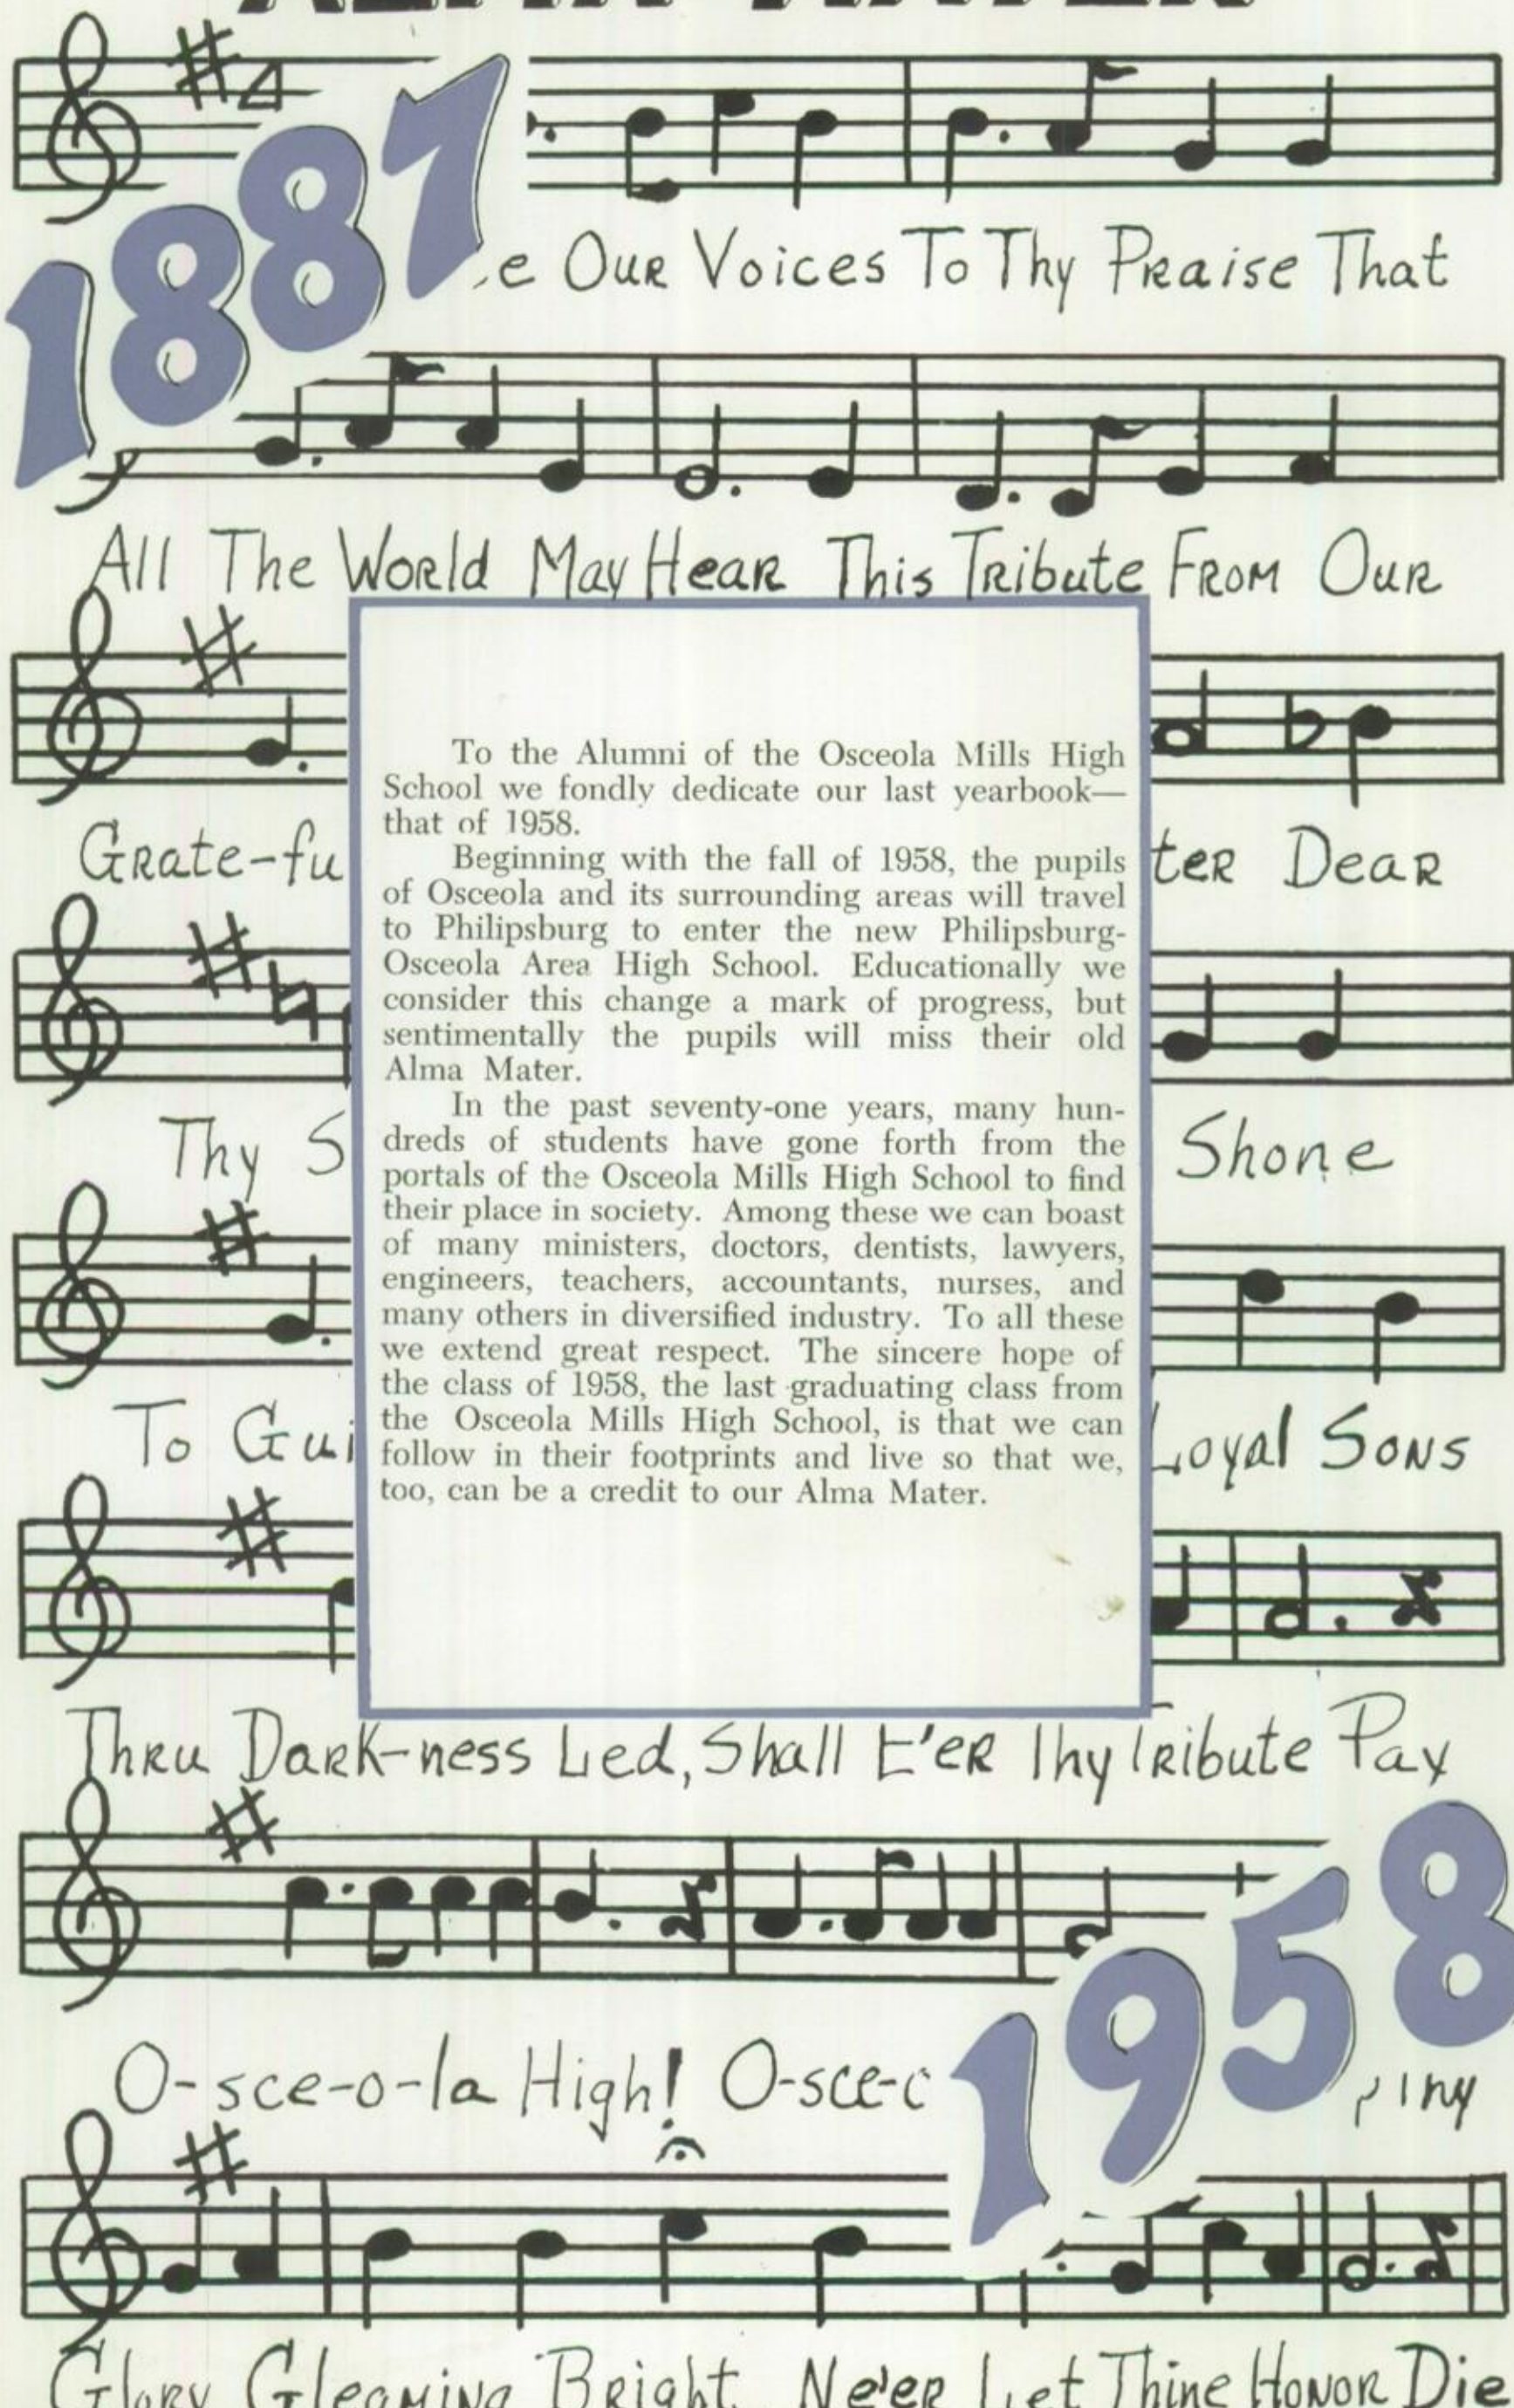
Osceola, Osceola,
Dear old High School—long remembered—
May we ne'er forget thy lessons,
Osceola—dear old High.

Each student strong as he joins the throng
Adds his bit to the spirit of the school.
You can work and win if you will just dig in.
You can be an aeroplane or just a mule!
And if each warrior does his part
The battle tide will turn—
As rings the ancient chieftain's cry!

Osce-o-Osceola-ola-o

THE CLASS OF 1958

ALMA MATER



To the Alumni of the Osceola Mills High School we fondly dedicate our last yearbook—that of 1958.

Beginning with the fall of 1958, the pupils of Osceola and its surrounding areas will travel to Philipsburg to enter the new Philipsburg-Osceola Area High School. Educationally we consider this change a mark of progress, but sentimentally the pupils will miss their old Alma Mater.

In the past seventy-one years, many hundreds of students have gone forth from the portals of the Osceola Mills High School to find their place in society. Among these we can boast of many ministers, doctors, dentists, lawyers, engineers, teachers, accountants, nurses, and many others in diversified industry. To all these we extend great respect. The sincere hope of the class of 1958, the last graduating class from the Osceola Mills High School, is that we can follow in their footprints and live so that we, too, can be a credit to our Alma Mater.

DAYS GONE BY

On May 23, 1958, a very important event took place at the Osceola Mills High School. On that day the last class of seniors to attend the "little red brick school on the hill" bade farewell to the school and its administrators. As their footsteps echoed down the hall and slowly disappeared, a feeling of sadness hung over everyone's heart.

This class has many happy memories of their high school days. Let us reminisce some of the joyful events of the Class of '58.

In September, 1954, we entered our freshman year of high school. There were many new faces in our group, and everyone did his best to become acquainted. Our advisors—Mr. Sticinski, Mr. Casilli, and Mr. Fritz—helped us to get adapted to high school life. After a few short weeks, we elected Helen Wasilko, Judy Wilson, Tina Kaspick, and Martha Reams to guide us through our freshman year. In May we held our class picnic at Black Moshannon Park, proving that we, too, were a self-supporting group. Mr. Fritz took over the controls as chief-chef and did a very noteworthy job. Of course, with his experience in cooking, he was right at home.

After taking the irony and criticism of the upperclassmen all year long, we entered our sophomore year, which proved to be a very eventful one. Since we had two home rooms, we, together with our guides, Mrs. Spencer and Miss Witchey, elected officers for each room. They were Fred Luther, Judy Wilson, Ted Cadman, Rose Ann Supko, Florence Reams, Tom Selfridge, Helen Wasilko, and George Timchak.

The first project of this year was a Christmas Party at the American Legion Home. Everyone had a wonderful time. Soon we began working on our class play, "Grandad Goes Wild." The humor of the play was supplemented by a door accidentally becoming locked. The performance was delayed until a key could be secured from Miss Moore's home.

In May we took a trip to Hershey. The trip proved to be very entertaining as well as educational. The visit to the chocolate factory may have had an ill effect on the candy business since many of the students became sick from the smell of chocolate.

Also in May, the Osceola Indian Baseballers, under the guidance of Coach Sticinski, had an undefeated season. In doing so, they edged out all competitors and won the Moshannon Valley Championship.

Soon time passed quickly on, and we found ourselves entering our junior year. This year was filled with work; but it, too, had its enjoyable moments. In September we got down to work and elected our class leaders, Dan Dugan, Helen Wasilko, Ethel Tormey, and Christine Lockey. These officers were helped in their guidance chores by Mr. Bilicic and Mr. Spencer

Our first job was a class play. This big success was called "Never Say Die"; and besides bringing many laughs, it also added money to our treasury. As the year drew on, the work increased. Preparations were made and work was begun for the Prom and Class Day. Although the comments on Class Day varied, everyone agreed that the Senior Prom was a great success.

In September, 1957, the long heralded time arrived. Our senior year began. For some it brought great cheer, but for many it marked the end of the greatest days in our lives.

Our most capable advisor, Miss Dugan, got us off to a flying start. The people who were to lead us through our final year were chosen. They were Dan Dugan, Jim Marin, Elaine Stone, and Kathryn Mineweaser. Next, we went "hog-wild" into our magazine campaign. The highest sales in the history of the school were recorded, and many of the students were greatly aided in the cost of their Washington trip. Immediately following, the cast for our class play, "Headin' For the Hills" was chosen. It was termed a success by many. The actors were practically indistinguishable since they were ill shod and very dirty in their appearance.

In January the Osceolian was begun. After many, many hours of hard work, it was finally completed and sent off to press.

As spring drew near, our school days faded rapidly. On April 17, 18, and 19, the Seniors made the annual pilgrimage to Washington, D.C. Everyone will long remember these days. Many saw for the first time the city of Washington, its many historic buildings and monuments. The sight-seeing brought on weary legs and swollen feet. On Saturday a group of exhausted, happy seniors returned from a trip that they will never forget.

The week of May 19-23 was a very hectic but enjoyable one. Crammed into this week were final exams, class night and last, but certainly not least, the Senior Prom. The Moose Ballroom was beautifully decorated in blue and white. Dan Dugan and Kathryn Mineweaser were chosen King and Queen to reign over the prom. The Seniors paid their highest praise to the Juniors for such a beautiful and enjoyable prom.

On May 25 the Seniors gathered at the Methodist church to hear Reverend Paul Shaffer deliver an appropriate Baccalaureate Address.

On May 28 the Parent-Teacher Association honored the graduates with a sumptuous banquet.

May 29, our graduation day finally arrived. Honorable James E. Van Zandt delivered a very enlightening address at our commencement exercises held in the Methodist church.

As the lights dimmed and the music faded away, the high school life of the Seniors of '58 had ended. However, the memories of those days will linger in our hearts forever.

These were our high school days as we lived them.

OUR WASHINGTON TOUR

A SENIOR'S DREAM

A Senior's dream has finally become a reality. The Seniors of 1958 are now at the prime of their lives, with some of the most exciting careers at hand. Twenty years have sneaked up on them, and they are now preparing to "blast off" to the moon for their reunion.

MISS CHRISTINE LOCKEY is the trim stewardess for our trip, while DICK CRAIN and MIKE BIRES are the daring pilots. As we settle back in our seats, we notice a gold plaque on the wall in commemoration of JOE TIRCH and TOM SELFRIDGE, who ingeniously designed this ship. It seems as if we have just settled down in our seats when we enter a luxurious space airport owned by the millionaire playboy, ED MCKEAN, and operated by his efficient assistant, EUGENE HEFFERAN.

As we leave the ship, the first person to greet us is FLORENCE KRAUSE. FLORENCE was the first woman to go to the moon, and she liked it so much that she decided to stay. Our eye catches the sight of three gentlemen standing in the far corner of the airport lobby, but as we come closer to them, we begin to wonder if they are gentlemen. Our guide, LENNY KEPHART, informs us that they are, shall we say, dignified hobos—namely, PAT O'BRIEN, AL HERR, and GEORGE TIMCHAK.

To the side of them is standing a very sober-faced man, with a balloon in his hand. Why, it is that famous nuclear physicist, TED CADMAN. His newest contribution to the moon is the misty air we are now breathing.

On the other side of the room is a beauty salon, and BRENDA REAMS is just leaving. Her hair was done by that noted stylist, HELEN WASILKO. Everyone can see that she just had those blonde tresses dipped in jet black again. I guess the old saying, "gentlemen prefer blondes", isn't true up here, since she dyed her hair jet black. SHIRLEY BRYAN is walking out behind her, with a look of satisfaction on her face. She works as a reducing salon expert, and right now SHIRL must have given someone the "works."

LENNY points out that we have a famous heart surgeon, "slippery fingers" JUDY WILSON. Her most capable nurse is "slop it all up" KATHRYN MINEWEASER.

Russia, because of her most celebrated "sputniks" some years ago, has really brought culture up here. Her newest contribution is the "Little Red Playhouse." In the limelight is that eminent Gopak Dancer, BARBARA SYPA, and her traveling companion, MARIE NATALIE.

Now it is time for everyone to go to the hotel, and we are all ushered outside to where a fleet of sport cars are waiting. In the first car are JOHN PUSKAS and BILL PITTS. JOHN couldn't resist creating all these cars for this occasion, and, of course, BILL loves to drive around in them. Wait a minute! Here comes GIOVANNI JIM POLLICK. He is the best known peanut vendor on the moon—in fact, the one and only peanut vendor on the moon. As we step out of the car, we are greeted by the hotel manager, BERNARD MINEWEASER, who takes us to our stupendous suites.

Evening has come at last, and everyone goes down to the dining room for his meal and evening's entertainment. MARY LOU REBO, ROSE ANN SUPKO, and JEAN BAUGHMAN are our nippy waitresses. Our delicious meal was cooked by that heart burn chef, JAMES MULHERON. And, of course, that apt dietitian, CAROL REAMS, is watching to see that everything is done just perfectly.

HELEN LUKENS, the mistress of ceremonies, is about to introduce the first act. Tonight, as a first, we are introducing our version of VAUGHN MONROE, JAMES MARIN. Ladies and Gentlemen, these great stars of stage and screen are coming here tonight to display their beautiful attire and talent. The first is MARY LOU RICHARDSON, the great child star of the cinema. Right behind her is ELAINE STONE, who starred in the great musical, "Showboat on the River Kwai." Of course, no one can mistake this girl, for she is that wonderful dancer who is often seen with Elvis Presley, JACKIE KEPHART. And now we would like to bring out that ravishing beauty, who models for the Bob Cummings show, KAY MILLER. This show wouldn't be complete without bringing out the best dressed woman of the past twenty years, NANCY DELANSKY. Here are those two lovable comedians, LOIS EIRICH and CYLDE FRANTZ. CLYDE tells the jokes, and, naturally, LOIS laughs at them. Now we would like to present our ATLASES, LARRY KEPHART (MR. EARTH), FRED LUTHER (MR. MOON), and LARRY KRAUSE (MR. JUPITER). How about "twitching a few muscles" for us, boys?

Oh, Oh, here comes NADINE ZECH. She is the great opera singer of this solar system, but it seems that the atmosphere is a little too heavy for her up here. TINA KASPICK is our next feature. She is known all over for her beautiful piano concertos, although the LIBERACE and Irving Berlin of the moon do not appreciate this type of music. SALLY COWFER is out to show TINA her version of what the solar system calls music.

It seems that the evening has already come to an end. Our producers for this reunion were JOE SMITH and SAM MCKAY. ETHEL TORMEY and DIANE TAYLOR were the costume designers. Our hair stylists were DOROTHY LEFORT and NANCY HOMAN. STEVE NOVAK designed the set, and NANCY BUSH was the makeup artist. This great day wouldn't have been possible if it hadn't been for DAN DUGAN and RUSH FRITZ, who engineered the whole show.

Perhaps in 1998 this class will be holding its reunion on Jupiter; nevertheless, we will meet again. Good Night, Earth People.
